

An iso 9001:2015 Company

# Venturi

## VENTURI

Venturi has applications for measurement of gases, steam, liquid flowing through circular, square or rectangular pipes/ducts. These are manufactured precisely as per various international standards. The permanent pressure loss against this flow element is the lowest as compared to the Orifice & Nozzle

## Technical Specifications

<b>Pipe Sizes</b>	15 MM to Any Size
<b>Design Standard</b>	ISO 5167
<b>Venturi Material</b>	IS 2062, Carbon Steel, Stainless Steel, Alloy Steel, Hastelloy, Titanium, Monel
<b>Types</b>	Fabricated, Machined or Cast
<b>Inlet Sizes</b>	15mm to any size
<b>Applications</b>	Typical Applications Gases, Steam, Liquids
